LSTA State FY14 Project Plan

**Approved
May 21, 2013**

**LSTA Grant Projects – Funding from Federal FY 2013
(To be spent in State FY2014 – July 1, 2013 to June 30, 2014)**

LSTA Statewide Projects

Missouri State Library Goal 1: Building and Sustaining Information Resources

LSTA Priority 1: Expand Services for Learning and Access to Information

LSTA Priority 2: Establish or Enhance Electronic Access to Library and Information Services

**Show Me the World Courier Service
Proposed Budget: \$306,761**

CONTINUING

The State Library will continue to support a two-day per week courier service for tax-supported public libraries. Providing state funding for the courier service improves turn-around time for interlibrary loan requests, streamlines and improves library staff workflows, increases the number of loans and requests, lowers the cost for each ILL transaction and helps to equalize access to resources for medium-size and small libraries.

**Show Me the World Integrated Library System Consortium
Proposed Budget: \$216,220**

CONTINUING

This project continues consortium support for the purposes of acquiring and implementing a shared integrated library system (ILS). This system improves discovery and sharing of library resources and provides a low-cost alternative to systems owned and managed individually by libraries. The consortium recruits primarily from public libraries, but could include school and special libraries as well.

This is the second of five successive annual migrations of libraries from their stand-alone integrated library systems to the consortium server's union catalog.

**Show Me the World Interlibrary Loan
Proposed Budget: \$347,705**

CONTINUING

This provides an integrated set of electronic services to facilitate resource sharing by public libraries. Funds are used to provide a statewide license for interlibrary loan (ILL); discount pricing for CatExpress, and access for users to search a 1 billion record database of library materials.

**Show Me the World Retrospective Conversion
Proposed Budget: \$125,000**

REINSTATED

This project provides funding for the retrospective conversion of library records to help make collections more accessible to local patrons and library users statewide. The resultant records are to be included in the grantee's online catalog and in the OCLC WorldCat database.

**Homework Help
Proposed Budget: \$300,000**

NEW

Missouri has embarked on an ambitious education reform plan – Top 10 by 20 – setting the goal of public education to rank in the top 10 on national and international measures of performance by 2020. One key goal is that all Missouri high school students will graduate college and career ready.

To help reach this goal, the State Library will contract with a vendor to provide statewide online homework assistance for students seeking help with mathematics, English, science and social studies. Funds will also be used to promote the new program.

Missouri State Library Goal 2: Targeting Library and Information Services

LSTA Priority 5: Supporting an Educated and Informed Citizenry

LSTA Priority 6: Serving the Underserved

Wolfner Talking Book and Braille Library

CONTINUING

Proposed Budget: \$342,633

Wolfner Talking Book and Braille Library provides circulation of materials, and reader advisory and special library services for persons with physical difficulties in using standard print materials. This amount is appropriated through the General Assembly.

Missouri State Library Goal 3: Strengthening the Library Workforce
LSTA Priority 3: Provide Training and Professional Development for the Library Workforce and Leadership

Library Programs Development Trainings
Proposed Budget: \$30,000

NEW

Library program development trainings are geared to help library staff develop new, expand or improve existing programs for targeted audiences. Topics may include job skills development programs, understanding teen behavior, serving seniors, and integrating new technologies into services. Trainings may be held webinars or single day regional workshops.

Library Skills Training
Proposed Budget: \$80,000

EXPANDED

Library skills trainings are designed to deliver instruction on basic and advanced levels. Potential topics for basic skills trainings include collection management, effective use of online resources, new technologies, 21st century skills, and library administration and management. Potential topics for advanced skills trainings include reference services, young adult services, readers advisory, and cataloging. Trainings may be held via multi-day intensive training sessions, webinars or single day regional workshops.

Literacy Services Development
Proposed Budget: \$30,000

CONTINUING

This project will provide training in the development and implementation of literacy-based services for public library staff members and their community partners. Training will focus on summer reading programs for children, teens and adults. Trainings may be held via webinars or single day regional workshops.

MOBIUS Users' Conference
Proposed Budget: \$30,000

CONTINUING

The Annual MOBIUS Users' Conference is one of the largest educational events for academic librarians in Missouri. The conference program enhances skills and abilities in the use of the Common Library Platform system to provide students effective access to library content. Other learning sessions address topics such as digitization, student instruction, developing collections, and improving searching through cataloging. As a result of conference attendance, librarians are better educated and equipped to provide improved library service to their academic communities.

The conference is planned by a MOBIUS committee, but also provides a strong partnership opportunity for the Missouri State Library. Typically, the conference has approximately 330 attendees and 36 sessions are offered. The conference budget is also supported through exhibits, vendor contributions, and MOBIUS funds.

The State Library responsibility involves participating in the MOBIUS Conference planning committee to monitor LSTA compliance, promoting the event, and funding through the LSTA program.

Services to Persons Having Difficulty Using the Library
Proposed Budget: \$30,000

CONTINUING

This project is twofold. The first continues the successful partnership with the Department of Mental Health (DMH) to improve services for persons with mental health and/or developmental disabilities. DMH will target training of public library staff to improve the services which those persons receive when they use their local public library. The second involves improving and expanding library service to people in state-operated mental health facilities. The FY14 proposals are typically developed in spring 2013.

Missouri State Library: Overarching Programs

Library Development Proposed Budget: \$46,000

CONTINUING

The Missouri State Library provides information and assistance to libraries on expanding services for learning and access to information and educational resources, on using technologies to expand electronic networks and provide electronic and other linkages among all types of libraries, on developing public and private partnerships, and on providing library services for persons meeting the LSTA criteria for targeted assistance. In addition to consultant services, staff manages statewide projects, prepares publications, offers statistical support, and maintains a collection of materials for consultation and loan to local libraries via Missouri State Library Reference Services.

This amount is appropriated through the General Assembly. This includes funds used for the management and delivery of the LSTA grant program.
